

Dear Parents/Guardians,

Welcome back to the start of the new term. I have been sharing with the pupils the need for them to be more serious in their studies. The school has created many conducive study corners for our pupils to hold their discussions and revise their work. The school library is also open from 8.00 a.m. to 6.00 p.m. everyday so that pupils can go there to study or do their work. There are also learning kiosks set up around the school to provide notes, games and videos for our pupils to hone their skills and gain knowledge in the different subject areas.

We have set up our national and school heritage corridors for our pupils to learn to be rooted to Singapore. Three learning gardens have also been created to instil in our pupils the importance of being environmentally-conscious. We are planning to set up an innovation corridor by this year to provide more opportunities for our pupils to be innovative and creative. All these efforts to nurture our pupils to be Scholars Who Lead and Serve can only succeed with your support. Together, we can make a difference in the lives of our pupils.

My teachers are conducting a number of workshops for parents during this term. I hope you will sign up for the workshops, if you have not already done so, and I look forward to meeting you on those two Saturdays. This is another way in which the school hopes to share some knowledge and tips with you, so that you are able to provide better home support to our pupils. As the saying goes, "it takes a whole village to raise a child".

I am pleased to inform you that with the support of the Marsiling-Yew Tee Town Council and Ministry of Education, the covered linkway from Block 371 to Gate B has been completed. We hope to be able to have the gate available for use soon, once the approval from the Building and Construction Authority is obtained. The linkway will bring about greater convenience for pupils and parents, especially on rainy days.

Thank you.

Lim Chew Hiong Richard
Principal
