

Dear Parents/Guardians,

We have come to the end of Term 3 and I have been speaking to the pupils to remind them about the need to make full use of their time for their studies and in the pursuit of their areas of interest. This is to develop them to be future scholars who lead and serve.

There were many enriching activities in Term 3, such as Mathematics Trail and Arts Fest. In July, the school hosted a group of pupils from Chongqing, China. Our pupils were very good hosts and it was a unique experience for them as they exchanged ideas and shared about their journey of learning. We were glad to see that friendships were forged, as evidenced by the pupils' reluctance to bid farewell to one another after the two-day visit. Such international friendships will go a long way for their future endeavors.

We also celebrated Racial Harmony Day and National Day. The choir put up a performance during Woodgrove National Day Dinner and the cheerleading team performed at Causeway Point. We are delighted that our pupils had these opportunities to showcase their talents, as they have helped our pupils to hone their skills and build up their confidence in performing in public. We hope to provide our pupils with more of such opportunities in the future.

Our newly-renovated library has been well received by the pupils. Many of them related to me that they were very grateful to the school for providing them with a conducive environment to study in.

It is not all work and no play though. Board games were purchased and these are made available to the pupils during recess and after school, when they are waiting for the afternoon activities to begin. We are pleased to see many of them engaging in these meaningful activities enthusiastically.

We are sending this letter during the last week of Term 3 instead of the first week of Term 4 as next term will be a busy term. We would like to inform you of all the dates in advance so that you can plan your schedule earlier. We have reminded our pupils to make full use of the upcoming holidays to revise their work and improve on the subjects they are weak in. As our partner in your child's education, you can help by monitoring them and giving them encouraging words.

Thank you.

Lim Chew Hiong Richard
Principal
